To Whom It May Concern:

We would like to tell you how impressed we were with HomeRail. We have just had two large jobs done by HomeRail. We had the pleasure of dealing with Brian and Doug. Both were very professional, super knowledgeable and went above and beyond the call of duty to complete our deck projects. Brian worked on our residence in Springbank. The front veranda looks fantastic – what a transformation! We will definitely be giving him a call in the next year or two to replace our large back deck. Doug worked on our property out at Pine Lake. He certainly went the extra mile for us! He even went into Red Deer and secured our building permit. He started with absolutely nothing and in less than 10 days a large beautiful maintenance free deck exists. Thank you so much!

We would highly recommend HomeRail to all of our friends and family. We, ourselves, will be giving you a call when we need work done. A pleasure to deal with a company who really cares! Keep up the good work!

Sincerely,
